O'Neill eyewear brand ambassador and team rider **Cory Lopez**

OUR OCEAN MISSION

In 1952 Jack O'Neill invented the wetsuit, because he just wanted to surf longer. That passion inextricably connects O'Neill to the water. As a brand created to enjoy nature, we see it as our responsibility to actively protect it and contribute to a cleaner, more sustainable world.

Our oceans are being impacted by a wave of plastic. We have a mission to protect them, so that future generations can experience that same inexplicable feeling we have when we enjoy nature. Our journey is never finished. It's an ongoing exercise where we learn, collaborate, improve and share - all with the goal of actively and steadily reducing the environmental footprint that we leave behind. We understand that we have to keep moving forward.

Green Product Award-winning O'Neill BLUE sunglasses continue to expand the sustainable family. The new **BLUEVAIR** and **BLUEJOLLA** models join the existing **BLUELYN**, **BLUESHORE** and **WOVE** designs, all of which are precision formed from recycled fishing nets with recyclable mineral glass lenses.

The O'Neill 2.0 Collection features three major upgrades to the lenses, materials and touchpoints:

HYDROFREAK™ lenses offer exceptional high-quality optics with 7 distinct features

ZEROFORM® frame material is impact resistant, lightweight and flexible

PSYCHOTECH® contact zones offer a sweat resistant dry grip

Whatever your plans are, it's always summer on the inside.

HYDROFREAK™ lenses

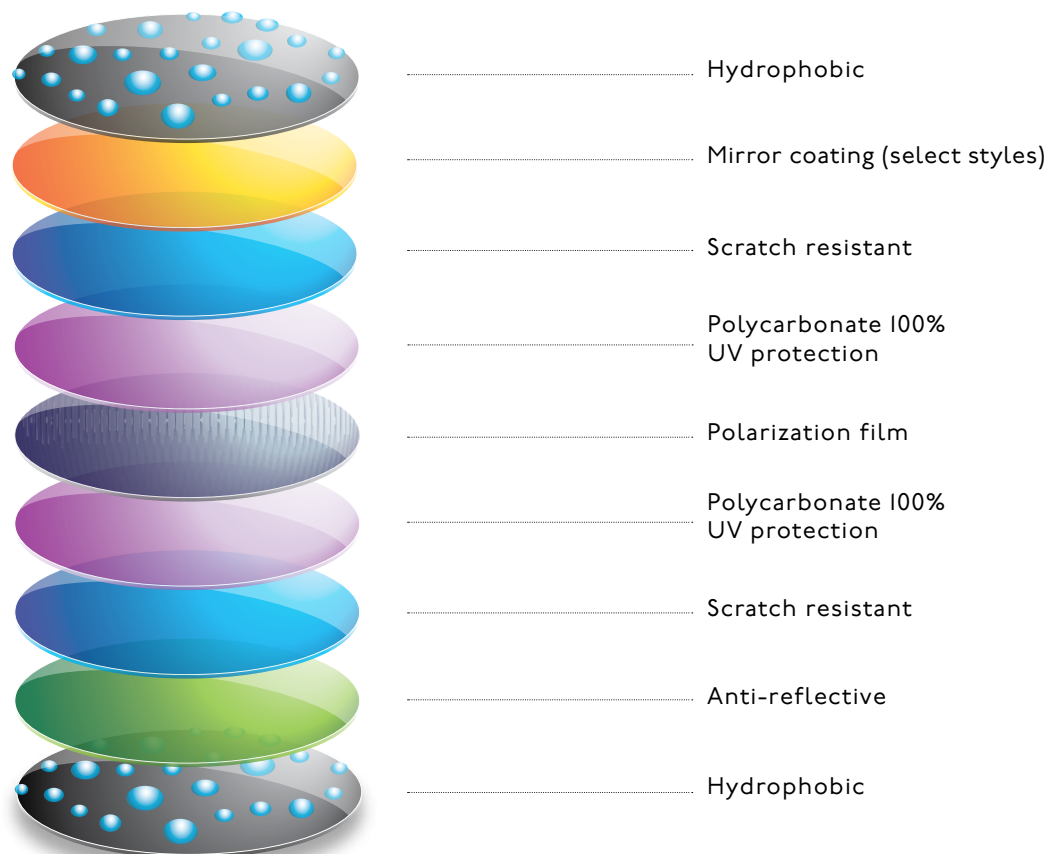

Water-repellent polarized lenses

- ♦ HYDROPHOBIC COATING
- ♦ POLARIZED FILTERS
- ♦ LIGHTWEIGHT POLYCARBONATE
- ♦ IMPACT-RESISTANT
- ♦ SCRATCH-RESISTANT
- ♦ ENHANCED UV PROTECTION (UVA / UVB 400)
- ♦ ANTI-REFLECTIVE TO REDUCE GLARE

O'Neill introduces HYDROFREAK™ lenses, with high-quality polarized film sealed and protected within lightweight and impact-resistant polycarbonate, and enhanced by water repellent hydrophobic and scratch resistant coatings.

HYDROFREAK™ lenses bring supreme visual clarity, utilizing backside anti-reflective coatings to reduce glare and halos, while creating increased contrast and truer colors.

All O'Neill 2.0 sunglasses are fitted with HYDROFREAK™ lenses and offer enhanced UVA and UVB protection from sun damage.

LENS TECHNOLOGY

ZEROFORM® frame material

Precision-molded ergonomics for active people

- ♦ LIGHTWEIGHT FLEX POLYMER
- ♦ DURABLE
- ♦ PRECISION-MOLDED CONTOUR FIT
- ♦ AMAZING COLOR AND FINISH OPTIONS

Active people seek out comfort, flex and durability. The answer to all of these requirements lies in ZEROFORM® - a synthetic polymer, elastic enough to give flex and secure fit, strong enough to resist impact, and lightweight for all day wear.

We pushed ZEROFORM® to the limit and designed a whole collection of sunglasses combining them with the best of O'Neill 2.0 lens technologies. The results are here, with the very best of vision protection featuring UV400 polarization, hydrophobic quick drying lenses and strategic PSYCHOTECH® contact zones.

PSYCHOTECH® contact zones

Sweat-resistant dry grip

- ♦ NO-SLIP TOUCHPOINTS
- ♦ MULTI-POINT IMPACT SHOCK ABSORPTION

Wherever O'Neill sunglasses make contact with your skin, find soft touch PSYCHOTECH® rubber precision-molded to cushion impact and retain a dry grip - even in damp conditions. PSYCHOTECH® rubber in O'Neill colors means it's always summer on the inside.

FRAME TECHNOLOGY

A wide-angle photograph of a calm ocean with a large, gentle wave forming. Several surfers are visible in the water, waiting for a break. The sky is clear and blue.

**"THE OCEAN IS ALIVE
AND WE'VE GOT TO TAKE CARE OF IT."**

—
-JACK O'NEILL

SUSTAINABLE EYEWEAR JOINS THE O'NEILL BLUE MISSION.

EYEWEAR REPURPOSED FROM PLASTIC WASTE

FRAME FROM RECYCLED GHOST FISHING NETS

Abandoned fishing gear poses a threat to marine life, entangling sea turtles, dolphins, birds and sharks.

LENSES FROM RECYCLABLE NATURAL MINERAL GLASS

Superior optical clarity. POLARIZED. 100% UVA UVB category 3 sun protection.

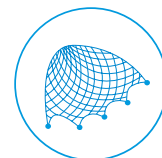

TOUCH POINTS FROM RECYCLED NATURAL RUBBER.

No slip comfort created from repurposed waste materials.

PACKAGING FROM BIODEGRADABLE PLASTIC MATERIAL AND A WATER-SOLUBLE HANGTAG.

EYEWEAR CASE FROM RECYCLED PLASTIC BOTTLES.

FRAMES THOUGHTFULLY DESIGNED TO HELP PROTECT THE OCEAN

Every element has been thoughtfully designed to consider materials with a lower impact on our planet. Sustainable O'Neill style is repurposed from land and sea waste with recyclable elements.

O'NEILL BLUE

Natural matte black

Solid green POLARIZED mineral glass lenses

Suitable for prescription glazing

Frame made from recycled fishing nets

Supplied with case and cleaning cloth made from recycled bottles

WATER SOLUBLE HANGTAG

CORY LOPEZ
SIGNATURE COLLECTION

Indian Rocks Beach legend and Team O'Neill favorite Cory Lopez has been with the brand for over twenty five years.

The notorious goofy footer and world class tube rider has been a key figure in the surf world since the '90s. Cory spent years competing, traveling and filming legendary videos with brother Shea and friend Andy Irons.

He's been ranked #1 on the ASP World Tour with a final season best of #3 in 2001. Some major career wins include U.S. Open of Surfing Champion, Billabong Pro Tahiti Champion, Globe SI Pro Champion, three X-Games gold medals and a gold and silver medal at the ISA World Championships.

He also won Surfer Magazine's "Tube of the Year" award in 2009 for the discovery of a "mile long" left point at Skeleton Bay, Africa.

Cory Lopez was inducted into the East Coast Surfing Hall of Fame in 2016.

Cory's Signature Sunglasses Collection is inspired by his surf lifestyle, with sun-soaked days on the beach, chasing tubes and teaching his kids to ride.

A stylized, handwritten signature of Cory Lopez in black ink.
